AREA SPORTS CAR enthusiasts will be interested to learn that for the second consecutive year a car using Emblem Motor Oil, manufactured by the United Refining Co. here, finished first in the touring car division of the Automobile Tour of Sicily.

The tour runs over a 1,000 mile course around the Island of Sicily. Besides being a test for both driver and car, all major sports car manufacturers and major oil companies suppliers vie for top honors in the race.

Pictured is one of the 15 entries that used Emblem Motor Oil and the Emblem booth.

DOES OUR WARREN SEWAGE PLANT SITE FLOOD?

LEST WE FORGET. Warren is about to spend two and one-half million dollars on a sewage plant and the system leading to it. Warren seems to have a propensity for building its major facilities in areas that flood; - the hospital, Beaty school, Memorial field, and some even want to do it with the new high school.

Perhaps flooding does not hurt a sewage plant, though it seems one might be very much out of use if the river waters were flowing through it. The site on which we are supposed to build the new plant does flood, and in a time of emergency it seems we would be foolish to accentuate it by putting our sewage system out of order.

Perhaps there is an emergency method of pouring all of the sewer into the river during such a period,

but is this practical when it may be possible to build on dry land? Land is the cheapest portion of the project. And our pumping stations are not installed. There still is time to lead our sewers to a higher site.

This can be done by moving west of Warren, or by moving only a few hundred feet to the east of the present site. There is higher ground there, and the line already runs through it.

This picture tells the story. It was taken during the 1956 flood, and shows water on both sides of the railroad tracks just west of the hospital. The sewage plant site is in the middle of the lake just above the tracks and just to the right of the Thomas Coupling plant.

Land south of the Coupling plant is dry, and through it runs the line which will lead to the sewage plant.

If a flooded sewage system is impractical, the answer is simple. We don't even need to change our plans.

The actual cost of the sewage plant and system may be no less than \$1,500,000, according to those close to the plans. The site involving such an expenditure certainly deserves careful consideration.

If the Kinzua dam is a reality, plans for the plant certainly will be different than those required for one that needs defense against the river's flow. However, with flash floods always a danger in an area so well supplied with creeks, runs, and steep watersheds, the best defense might be to build sufficiently high to avoid any possibility of trouble.

JAYCEE MID-SUMMER MARDI GRAS festivities opened in Warren last Friday evening with the selec-

tion of finalists to compete for the title of Queen. The final selection will be made at 7:30 Tuesday eve-

ning, at the Beaty courts. A Coronation Ball will follow in Beaty cafeteria at 9 p.m.

Here are 17 of the 18 pretty girls who bid for honors at Friday night's ceremony.

The finalists are pictured elsewhere in this edition.

ASIDES

RELIEVED WIVES may be found in the households of Struthers-Wells employees. The last strike in that plant went on for months and became a problem for those trying to balance the family budget. This one started Friday and was concluded Tuesday to the relief of all.

COSTLY BAD HABIT
If you believe you are getting away with something when you toss bottles or rubbish onto the berm alongside our highways, you may be surprised one of these days if your license is noted and reported. Litterbugging now can cost you a fine of \$25 or ten days in jail.

And if you are the one who sees someone pulling this untidy trick, take the number and call police. It may result in cleaner, healthier, and safer highways.

ALSO UNLAWFUL
Another highway stunt that has been noted by residents of areas near flat fields in this section is the firing of rifles at woodchucks. This also is illegal and very dangerous. Homes in the areas involved are not happy about it and license plates again may be noted to the embarrassment of a few rather poor marksmen.

DRAG RACING
Residents of portions of Warren and of several nearby towns are becoming a bit incensed by the drag

racing that is going on in the wee hours of the morning. In some of the smaller towns the hot-rods wait until the law retires and then burn rubber in a fashion that is not conducive to rest on the part of the natives.

In Warren the police should be called. Adults in other towns are planning to call state police.

GIRLS MISS PRACTICE
When the new fire escape is completed for the third floor of Warren high school, which will be used until the new school is built, it will be the shoot the chute kind. Which means the third floor drills will be limited to the boys. The girls will watch. (And won't have to climb back to the third floor.)

SMALL MERCHANTS BALLOT
Some retail merchants in Warren are joining the National Federation of Independent Business and are voting on various questions put by its officials. It is serving as a non-profit lobby, with the decision of the members on the various questions determining what will be told the Washington officials . . . in our case Congressman Gavin.

Newspapers are asked to carry a column, "Small Business", by C. Wilson Harder. Members in Warren send their ballots to James Mazzu, who counts them and sends the results to headquarters.

Right now the members are being asked such questions as, "Are you for or against congress making small business tax cuts No. 1 objective in 1957?" Any congressman who doesn't know the answer to that one in advance should have his votes examined.

PLANS FOR NEW SERVICE
The Bell Telephone Company of Pennsylvania has proposed a plan for serving Lottsville, Chandlers Valley, Sugar Grove, and the neighboring area which would include a dial office at Sugar Grove. A base rate area would be established in Sugar Grove where graded service rates would apply.

Monthly charges in the secondary areas would be rated by mileage. Warren and Youngsville would be included in the local service area. Rates would range from \$2.70 for multi-party residence to \$7.55 for business.

Existing facilities would not be purchased, and it would require a minimum of two and a half years to furnish the service if the proposal is accepted.

DAIRYMEN TO VOTE
Warren county farmers will take part in a ballot box referendum which will be held next Tuesday on the proposed New York-New Jersey Milk Marketing Order. About 150 dairy farmers will be eligible to vote at the Northern Area high school or the Bear Lake fire hall.

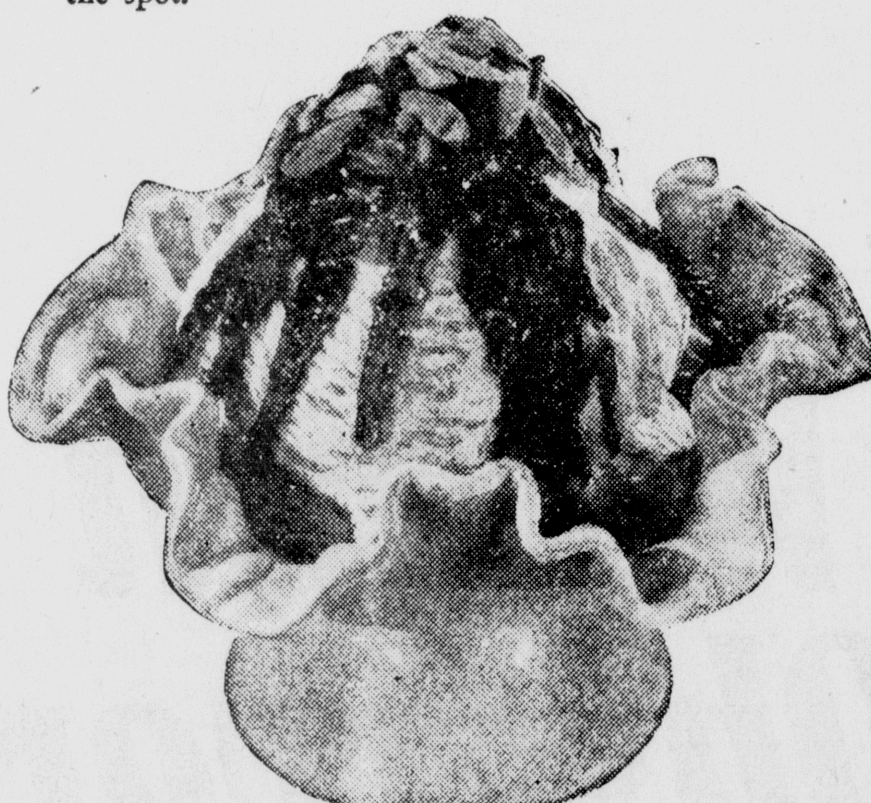

Only producers shipping to the plants at Bear Lake, Sugar Grove, Akeley, or Centerville will be involved. They also may vote at Frewsburg or Mayville, and New York farmers may vote at the Pennsylvania polls.

OFFICIAL
It now is official that Warren has \$250,000 to spend on its sewage plant. The federal appropriation for this amount received much publicity early this month but it was not until last week that formal notice was received. The grant now is ours to spend.

CLEARED AT LAST
Along with the continuous line of supreme court decisions that are spelling out new freedom for many who have been persecuted in a way that contradicts the spirit and letter of our constitution, also comes a formal license renewal for Edward Lamb, who owns WICU in Erie. The ruling sustains an initial decision of a year ago. Lamb received full front page abuse by opposing journalists when the case first developed. Now news items concerning his innocence are difficult to find.

Observations

By Bob Walsh

HOT WEATHER LENGTH

We hope to keep each thought in this week's column as short as a heated breath under a sun that has escaped us for two years. We despaired because of no summer last year, all winter we hoped for a real one, and now we are enjoying every second of our humid sufferings.

SMOKE 'EM OUT

Both Edward R. Murrow who glosses over his subjects in Person to Person and Mike Wallace who makes at least a pretense of toughness and does ask pointed questions, work behind a smoke-screen. Mike's is put up by his sponsor and Murrow puffs his own.

We could use more Wallace on radio and television. There is not enough unmasking and hard core interviewing done in these fields. They owe to the listeners and the viewers, who are their patrons in many ways, the truth, uncovered by well done questioning and news hunting.

Murrow would beat Wallace by a million wave lengths in this field if he took such a tact. And some of his persons wouldn't be guests.

Some night we would like to hear a Wallace guest hand back a very tough question. How can a man promote the sale of cigarettes when medical men now are making formal statements to the effect that cigarettes, cigars, and pipes shorten the lives of those who use them? It takes some of the glitter off his crusading armor.

He is the front man for the industry which smiles smugly at the public announcements concerning the danger it creates, confident in the knowledge that its clever advertising will make two smokers for every one who quits this year.

NOW LEGAL INSURANCE

Soon you will read of unions going on strike to obtain legal insurance. That is the next one which will be asked for the package of fringe benefits. Need a lawyer? Call your insurance agent. And it won't cost much. Not as much as hospitalization. And the company will pay part of it.

*

The part we don't like . . . if the cost of a lawyer is made easy, and if all of us pay the costs of a few, won't much of the penalty be lost in criminal cases?

The out -- don't include help for criminal cases.

*

This will make lawyers as short as doctors and hospital beds.

LEARN HOW

Sunday's drowning which occurred in the river just above Warren again points up the need to teach all young people how to swim. This girl was wading and plainly drowned only because she became excited.

If she had been at ease in the water even to a limited degree, a few easy strokes to shallow water would have saved her life.

*

A public swimming pool which now is shaping up for Warren, should offer some help in this direction. It will offer supervised water sport and will provide more swimming skill.

*

Meanwhile, if you can not swim, stay out of boats and out of the river, the lakes, and the deep streams.

AVOID CONFLICTS

Everyone loses when public events are booked on the same date or days too close together. The Observer offers you a means of avoiding such trouble. Use the Community Calendar.

Study it for open dates. Pick one. Then call the Observer, 1513, and register your date so that others will know it is filled.

This is not the Observer's private calendar. But until one is established at a central point, it will have to serve.

The public wants to support good attractions. You want your event to succeed. Call 1513.

UNUSED TAX SOURCE

The excuse for use of the unfair per capita tax is that there are some who escape property assessments. Actually this is not true in the vast majority of cases, because if you pay your money for anything, and especially for rent, you are paying the

seller's real estate tax. If you are not he is a poor business man.

However, there are people who do not pay rent, and exceptional situations can be found where practically none of the real estate load is assumed by some residents. One example is those who work for state institutions and for whom housing is provided by the state.

To reach these, the per capita is a poor method. It is poor because it takes so little from them while penalizing many so unfairly. The low wage income earner, with a large family and perhaps several dependent parents, will pay more tax than the wealthy bachelor.

So why are we not using the earned income tax? It will yield far more and will do it in a far fairer way. It is a tax against earned income, and consequently the bigger the pay envelope the bigger the tax. Which is as it should be.

The opposition in the case of Warren always has come from neighboring communities or townships. So, let them use it also, instead of the per capita. Conewango township thus would reach its hospital residents, and all would touch a source much richer than the per capita and much fairer.

To do this will require courage. Some one must do it first. So far our governing groups have been unable to face down interfering visitors.

VENDING MACHINES

For a paper which has continuously carried articles which warned the reader against the possible dangers of ads offering jobs in the vending machine field, we certainly receive our share of such ads. However, each one makes it plain that an investment is required and what the investment is. You obviously are going into business if you sign up. Most of them offer references or come to us through advertising agencies. We know little more about them. From there you are on your own.

GAS PROSPERITY GROWS

Warm weather in April didn't bother the gas utility and pipeline industry. Though April was warmer than the same month in 1956, the sales increased 5.7 per cent. This involves natural gas and suggests a steady conversion from manufactured and mixed gas, the sales of which dropped about 40 per cent. Meanwhile, natural gas common stocks climbed to a new high of \$43.97 per share. Dividends aver-

aged \$1.91, representing a 9.8 per cent increase and an annual yield of 4.4 per cent.

Pipeline stocks, according to Moody's, also climbed, reading 26 per cent higher than a year ago. Dividends averaged \$2.29 a share, a 11.7 per cent jump.

PIPELINES MAY BE SEPARATED

The supreme court decision relative to the control of General Motors by DuPont may set up a precedent for action in several fields. One of these may be the oil and natural gas industry which some believe is controlled by about five major companies. As a result of current investigations they could be forced to give up their pipelines which may be told to operate separately as a transportation facility.

The 27-1/2 per cent depletion clause also may be lost to oil if the investigation receives sufficient publicity. Up to now you wouldn't know it was underway, as far as most papers are concerned. Yet it is turning up some facts equally as startling as the labor expose.

GOP GIFT TO POWER

The administration's handling of the Idaho Power Co. situation will do it no good if the friendly Republican press ever gets up enough gumption to reveal the facts. Here

again we find a favored few benefiting by inside knowledge in Washington. Some apparently knew in advance that the site was going to private industry and also knew what corporation would get it. Stock was bought quietly and a major profit was made when the news broke.

This gives the last major power site in the nation to private utilities which will not develop it to the maximum, but will build small, inadequate dams, for which you will pay and from which you will receive

no income. The fast deduction that was supposed to be used only for war time emergency purposes has been granted to the utilities and they will enjoy sufficient benefits to practically give them the dams for nothing.

When you gather all this together with the five oil companies which made the most of the Suez situation to profit handsomely, and also took their depletion from income that was not made in this country, you come up with some sensational committee exposures that are not being exposed by radio, press, or television.

DEMOCRATS NOT BENIGN

Meanwhile, except for a very few, the Democrats do nothing about this hot issue, which could be the big one in coming election years. They, of course, realize that some of these very fat favors have been handed out with their full knowledge and in fact while they either were very much in office at the White House, or very much in power in congress.

BAIT ADS USED TO SELL STORM WINDOWS

The Federal Trade Commission has charged five affiliated companies and their officers with using bait advertising to sell aluminum combination storm windows and screens and storm doors.

Charged with false advertising in violation of the FTC Act are:

Mid-Tex Corp., 2608 Coney Island Ave., Brooklyn, N.Y., and Apex Window Co., Inc., of the same address, and Arnold Semenoff and Sidney Tobinick, officers of both corporations;

Famous Window Co., of Pennsylvania, 2757 Saw Mill Run Blvd., Pittsburgh, Pa., and its officers, Harold Brown and Jesse Kessler;

Famous Window Co., Inc. 12065 Wyoming Ave., Detroit, Mich., and its officers, Oscar J. Reiss and Sam Spector; and

Ace Window Company of Missouri, Inc., 1518 McGee St., Kansas City, Mo., and its officers, Dolph Greene, Albert H. Nadler, and Herbert Armstrong.

Also named are Martin Austin and Jack Rachell, who trade as Martin Window Co., and are located at 2608 Coney Island Ave., Brooklyn, N.Y.

The complaint alleges that Arnold Semenoff and Sidney Tobinick "in cooperation and conjunction with the other individual respondents" direct the activities of the corporations.

According to the complaint, the respondents have used bait advertising in order to get leads on persons interested in their merchandise. Typical of the newspaper, radio, and television ads, the complaint says, is this one:

"Save Fuel - Keep Warm This Winter with the new 1956 Famous Triple Insert Screen and Storm Windows. \$10.45 installation included *** Eliminate changeover *** Are Rust and Warp Proof *** First payment May 1956 then up to 3 years to pay ***"

The fact is, the complaint says, ads of this type are not bona fide offers to sell. Salesmen make little or no effort to sell the inexpensive advertised product. They have disparaged this product, even after purchase contracts have been signed. For example, in direct contradiction to the ads, they have claimed these storm windows and screens would pit, rust and corrode, and require frequent removal and cleaning. They also have told purchasers they would have to pay high carpentry charges for installation of these products.

All these tactics, the complaint says, were used to induce persons interested by the ads to buy much higher priced merchandise.

PURE MILDNESS, PURE TORPOR

If there's a trend of any sort in
the past season and the outlook for
the next one, it is toward shows
that don't require very much of the

home audience. By that I mean,
the popular shows of the last season
and the ones that will be widely
imitated next season don't involve
you emotionally very much and
don't even require you to pay
very close attention. Take Perry Como as a particu-
larly conspicuous example of this
trend. The show opens with Como
singing, usually with a group. You
don't have to catch the opening.
You can tune in fifteen minutes
late without really missing any-
thing crucial except the beginning
of the running gag which every
musical show has built into it these
days. Mr. Como is relaxed to the
point of torpor and this has proved
highly salable - if you believe
ratings. The sketches, if you can
call them that, are all done in the
spirit of we're-only-fooling-please-

don't-take-it-seriously.

This same spirit pervades the
Dinah Shore show and will, I'm
willing to bet, be the guiding spirit
of half a dozen imitators. On the
other hand, Sid Caesar and Jackie
Gleason, to name two people that
won't be around next season, did
demand quite a lot more of the
spectators. Neither comedian,
heaven knows, was dealing in high
comedy or deep thinking but their
sort of foolery did demand at least
that you pay attention. You couldn't
tune in fifteen minutes late without
missing the point of the jest.

There are other signs pointing in
the same direction. There will be a
fearful toll next season in the hour-
long drama where the playwriting
ranged from good to awful but where
the intentions were almost always
fairly serious. Here again the play-
wright demands that the guy at home
not only pay attention but become
emotionally committed. Some of the
most rewarding things on television
have been hour-long dramas but all
of them have asked for some effort
on the part of the home audience.

And while the hour-long serious
drama is falling by the wayside,
what is taking its place? Well, two
types of shows that are going to be
all over the spectrum are westerns
and whodunits. Both require a little
more of the spectator than listening
to a singer but not much, even the
most adult western wouldn't strain

the intelligence of an eight-year-old.
You and your eight-year-old son
know instantly who are the villains
and which way they went - and what
else do you have to know? Whodunits
insist that you pay attention to some
degree but the amount of emotion
asked of the viewer is almost nil.
You know very well they're going to
track down the killer and the only
question is when and how.

I don't think there's any question
of the trend toward the light, the
frivolous, the surface, the pre-
digested type of entertainment - how
deeply does Lawrence Welk move
you, for instance? And that leads us
to ask why this is so. The chief
reason I think is inherent in the
nature of the audience and the cir-
cumstances under which it watches.

It is a home audience. It is small -
from one to three people - and it is
only half committed to the screen.
In the theater or at the movies,
there is nothing else to do. Once
you get there it would take a very
bad movie or very bad play to send
you scurrying back home. Also, the
audience itself imposes attention and
by a sort of group catalytic action
deepens your sense of participation.
The same scene has more impact in
a theater than at home.

At home there are endless small
distractions. You can turn the set to
another station or off altogether

without having ruined your evening.
The program is there by minute-to-
minute suffrance which can end at
any time and be resumed at any
time. Therefore it is not altogether
surprising that very successful
shows are being tailored (and I think
unconsciously tailored because I
don't think anyone is deliberately
aiming at this sort of audience) to
fit the special circumstances of the
observer.

If this is the trend, it ought to be
understood, it ought also to be check-
ed. Because the end result will be

pure mildness, pure torpor, pure
opiate. While the ratings climb high-
er and higher, the degree of attention
goes lower and lower until the viewer
will barely be able to remember
what he has seen. This would be
deplorable and it would not be the
broadcaster's fault entirely. Part of
the blame would be on the viewer for
giving so little of himself to the
entertainers and to the shows that
come into his living room.

EIGHTY-SIX YEARS YOUNG on June 11th was Mrs. Minnie Headley, of North Warren. She observed her birthday with a party for family and friends at the home of a daughter, Mrs. Florence Burghardt, with whom she lives. Still very active around the home, she attends Golden Age Club meetings in Warren and is a member of the North Warren Presbyterian Church.

LAYS 'EM DOWN, Ike Reed, right, has laid down his scissors after 61 years of barbering in approximately the same location. Ike has not closed his shop under the Community Consumer Discount company, but will trim his last head this coming Saturday. At the left is Bert Smerker, a barber with the Reed shop for about forty years, who will continue to serve his customers at the popular location.

Mr. Reed came to Warren from

Altoona in 1896 and went to work for John Wilkin who had a shop on the first floor where the loan company now is located. He and his brother, Harry, bought the shop in 1898. Harry Reed left the business in 1929 and has been residing at St. Petersburg in the winters and at Chautauqua Lake summers. The shop moved downstairs in 1922.

At one time the Reed shop had most of the leading citizens of the community as its customers. It was

customary in those days for regular customers to have their own shaving mugs. Some of these were quite fancy and became collector's items. A major share of these mugs can be seen in the picture.

Mr. Reed always has been an active sportsman. He was a leader in the Allegheny Hiking Club, hunted, fished, and helped in Boy Scout work. One of his major hobbies is his garden. He expects to keep very busy in these and other activities.

A HIGHLIGHT of the Jaycee Mid-Summer Mardi-Gras will be the appearance of the Black Diamond Wild West Rodeo on the afternoon and evenings of July 4-5-6.

All seats for the twenty-event show are priced at \$2.00 per performance except for a special Friday afternoon children's show when seats will be \$1.00 for youngsters. The ducats are now on sale at headquarters in the Warren Drug Store, 233 Liberty st., Warren.

One of the thrilling events of the Rodeo will be Brahma (sorry, no bull pictures were available) bull riding.

TEMPLE GRAD, Russell J. Pratt, son of Mr. and Mrs. James G. Pratt, R.D. 2, Warren, was graduated June 13 from the Temple University School of Medicine and will now start his internship at Williamsport General Hospital effective July 1.

The young doctor's wife, E. Margaret, was also graduated from the university with a bachelor of science degree in education with a major in music.

Dr. and Mrs. Pratt will make their home in Williamsport during his internship there.

COCHRAN'S MAJORETTES from Clinton, Ohio. This sharp looking outfit, which performed at the College All-Star football game last year and has been seen during the Cleveland Brown games on numerous occasions, will appear in the Jaycee Mid-Summer Mardi Gras parade on July 6.

The precision drill team has an all-girl membership of 79 and will stage a show prior to the parade as well as march.

MR. AND MRS. DENNIS HEDGES

The First Lutheran Church was the scene last Saturday of a wedding ceremony that united in marriage Vonda Lee Schwitzer, daughter of Mr. and Mrs. C. L. Schwitzer, 29 Glade ave., Warren, and Dennis Hedges, son of Mr. and Mrs. Marshall Hedges, 123 Oak st., Warren.

The bride, a Warren high school graduate, is employed at the Warren National Bank. Mr. Hedges is a 1956 graduate of the Pennsylvania State University and an employee of Pennsylvania Furnace and Iron.

STRIKE SETTLED. Nearly 400 employes of Struthers-Wells Corp. in Warren returned to their jobs Wednesday morning after going on strike at midnight Friday.

The IAM, Local 1328 members changed their minds at a special Tuesday afternoon meeting in which they voted 204 to 55 to accept a two-year contract with the company that gave them a package deal amounting to about 31 cents an hour.

DROWNING VICTIM. The Allegheny River claimed the life of a 16-year-old Warren girl about 1:15 p.m. Sunday while she was swimming with three companions at Shipman's Eddy near Hemlock.

The victim was Betty Cummings, daughter of Mr. and Mrs. Donald Cummings, 117 Ludlow st. It is believed the water was three to four feet deep where the girl apparently slipped into a hole and beneath the surface. Her companions' shouts for help brought several boats from neighboring cottages to the scene and in a short time the body was discovered by George German, of Warren.

Warren firemen were dispatched to the site, but all efforts to revive the girl were in vain.

TWO RECKLESS DRIVING charges were placed by Borough Police last Saturday after as many accidents occurred involving parked vehicles.

The first happened at 5:46 p.m. when Ned J. Zaffino, 712 W. Fifth st., onto Beech st. and spun his car around into a parked auto owned by Mary D. Hartnett, of 420 Beech st. Total damaged amounted to about \$250 and a passenger, Danny P. Zaffino, was reported injured.

At 9:30 p.m. that evening Neil Bell, Clarendon, swerved into a parked auto owned by Joseph Giusti, Pittsburgh, in the 700 block of Pennsylvania ave., E. Damage was less than \$100.

THE SELECTIVE SERVICE BOARD has disclosed that Theodore G. Huber, of Warren, will leave Warren by train next Tuesday night for induction into the Armed Forces in New Cumberland on Wednesday. Thirteen other men

will also make the trip for pre-induction physicals.

A TWO-CAR MISHAP took place near Park and North streets about 3:15 p.m. last Thursday when Selma Rydholm, 306 Park st., stopped to pick up a passenger and was struck in the rear by a vehicle operated by Barbara A. Almendinger, 1213 Fifth st. The driver of the stopped auto received a sprained neck, while damage to the cars was estimated at \$950.

ABOUT \$400 DAMAGE was caused at 4 a.m. Sunday when Elroy Harrison, R. D. 1, Jamestown, N. Y., failed to negotiate a curve on Route 6 at Irvine and struck several guard rails.

AT QUARTER SESSIONS COURT last Thursday Gilbert Haight, of Irvine, facing a charge of driving during suspension, and Wayne Grant, Jr., a drunken driving charge, were each ordered to pay \$100 fines, serve three days in the county jail, and pay costs.

DIVORCES GRANTED in Warren County divorce court this past week were in the cases of Harold A. Kiser vs. Alice S. Kiser, Loren E. Ames vs. Laura May Ames, Nellie V. Buckley vs. John F. Buckley, Hazel V. Hedges vs. John J. Hedges, Greta Mae Steinbacher vs. Donald J. Steinbacher.

COLLEGE NEWS. Ansel C. Anderson, of North Warren, was awarded the master of arts degree in physics from Wesleyan University during ceremonies June 8. A graduate of Warren high school, he received a B. S. degree from Allegheny College in 1955 and now plans to continue graduate study at the University of Illinois. He is the son of Mr. and Mrs. Conrad Anderson, of North Warren.

Among the thirty-eight students to make the Dean's list for the final semester at Jamestown Community College were sophomore Richard E. Johnson, Sugar Grove, and freshman Harold R. Henning, Warren.

Ramon B. Hoff, 27 Walnut st., Warren, was the recipient of a bachelor of arts degree at Harvard University commencement exercises held on Thursday, June 13.

SHOT WESTERN STYLE. Donald Mathews, 27-year-old Ambridge man, remained in fairly good condition at Warren General Hospital Wednesday after a bullet entered his right side and lodged left of the spinal column in an incident that happened about 5 p.m. Sunday at a camp in Pleasant twp.

While it has been stated that the bullet ricocheted from the gun of several friends who were target practicing with Mathews, officials and witnesses maintain the shot was discharged from the victim's own revolver as he twirled it in his hand. Burns on the skin of Mathews led officials to further believe it was his own gun.

OFF FOR CAMP

Procedures change. We saw a group of youngsters take off for camp a few days ago and for a few minutes we thought they were going to the front and wouldn't be back until it was over over there. There were more parents and friends gathered about the bus than there were campers.

A cartoonist would have had a ball-point ball. In fact we have seen some done on this situation and up to now we thought the artists were letting their imaginations through the sound barrier, but now we know.

We have done some home-leaving for camp at tender ages but no one gathered at the point of departure to offer last minute advice about our teeth or double-check their memory concerning our equipment. We had that list made out weeks ahead, and it was put together and inventoried at least twenty-four hours in advance.

This juvenile delinquent hopped into a car, a train, or a truck, or loaded his luggage thereon and took off by foot, and no one waved him a tearful farewell. (Thankfully.)

Of course we were not as mature as the modern child who has the benefit of radio and television to smarten him up at an early stage. The difference may be that we saw our parents every day and every evening, and all involved were ready for a short vacation. Today they may not see the old boy until they take off for camp. Then, suddenly, the pappy who has been anything but, all at once looks the doting part.

In our literary ramblings we recently read a piece about family camping that offered some good ideas. This family has seen much of the nation with a station-wagon, a tent, air mattresses, a gasoline stove, and sleeping bags.

For what it would cost to visit a hotel for a few nights they spend weeks on the road and see much more. They also are together in wholesome surroundings and are working and playing together.

All have a part in making camp. The tent is used only for privacy and not for sleeping. Or it can be a refuge in bad weather. It goes up in about four minutes with a center pole. The air mattresses are pumped up in a few minutes, the stove is set up, simple dishes brought out, and all is ready for the night.

The fields, streams, and woodlands are their playground, and they can do about anything they choose, whether it be fish, play ball, golf, swim, listen to the car radio, or just loaf.

On one trip they traveled through several states, saw many interesting places, took numerous colored pictures, and paid out only \$300. Try two weeks of hotel living and eating, plus other relative expenses for anything close to that amount. (We are speaking of a family of four.)

In addition to the equipment already mentioned they carry little more than an axe, small shovel, hatchet, usual car tools, a lamp, stew pan, fry pan, and whatever they need for fun.

Every state offers camping sites, similar to those we know of around here and every state offers you maps which direct you to areas where you can spend your camping days. Self reliance, cooperation, clean fun, and a close family relationship are a few of the major assets developed.

RELIGIOUS COURSES

Twelve one-week short courses and two two-week courses are included in the summer session of Chautauqua this year. In addition to the short courses, there will be a junior church school for ages ranging from kindergarten through high school.

Some of the instructors include Dr. Warren L. Hickman, dean of Ithaca College of Science and Arts, who will lead a class in a survey of colonialism, nationalism, and independent states. The life, ministry, death and resurrection of Jesus is the specialty of Rev. Jesse L. Baird, D. D., president of the San Anselmo Theological seminary, who will conduct a course dealing with these events.

Others teaching are: Dr. Mabel Head, director of the

NO-HIT BALL
Ed Rickerson, who has just been signed to a Cleveland Indian farm club, tossed a no-hitter when the Warren Elks shut-out Jamestown Moose 8-0 on the State Hospital diamond last Friday evening. A GRASSLAND MACHINE demonstration was recently conducted by the Warren County Agricultural Extension office and the Warren State

Hospital at the state farm. Here a group of area farmers are looking over the latest style of side delivery rakes.

A FIELD CHOPPER, which cuts green grass in short lengths of about one-half inch for silage, was another

interesting piece of equipment at the Grassland demonstration.

A RELATIVELY NEW outfit at the Grassland demonstration was the hay conditioner. It crushes the stem

of the cut grass, allowing the farmer a faster drying time for cured hay.

OPEN FISHING

The season is wide open on any kind of fish you want to catch in Pennsylvania, and will remain that way until September 2, when brook, rainbow, and brown trout may be caught for the last time this year.

The new era for bass started Saturday, and suggests the years prior to 1917 when this kind of fish was not listed among those protected. The season for large mouth and smallmouth bass runs until March 14.

The fishermen did not act that way Saturday. They poured onto the streams as though bass were legal game for only one week end. The river was covered with boats and cars filled most available parking spots near the stream.

The weather, of course, contributed to the turn-out. It was perfect day to be on, in, or near the water.

As for the catch we are not very well informed. A few seemed to be doing fairly well, but we saw plenty with nothing in their creels.

But all were having a good day in the open. One young man had his supplies neatly distributed on his shoulder and back, and was fishing the Allegheny on foot. We saw him in the morning, and he still was at it many miles downstream in the early evening. He had eaten, walked, rested, fished, and spent a happy day wandering along the beautiful waters.

The biggest catch we saw was a major supply of fresh air, sunshine, relaxation, and in the case of those who walked (or rowed) a good bit of exercise. (Especially by those who lugged boots for many miles.)

WHERE'S BOBWHITE?

Some are wondering what became

of the quail covies which once kept guns busy in wide open country well spotted by rail fences and brush clumps. And there you have a big share of your answer. The fence is gone and much of our mechanical farming today is done so cleanly that brush borders do not exist. The quail has lost his retreat.

He also has lost his food. He once followed the farmer and was the farmer's friend in that his feeding habits did little damage and much good. He did like grain, and with it always came the quail. But most farms now are using much acreage for other crops and the quail has moved away.

His return will not be possible under present conditions because he is not apt to change his habits. He wants grain, safe shelter, and weed fields near his natural protection. He also likes those old rail fences. Stock him in such an area and he will do fairly well.

However, if such facilities are concentrated so that the hunting also will be heavy in a small area, the result is obvious.

BEAR CUB PROBLEMS, AGAIN

People seem to divide into two classes when it comes to wildlife. Either they are too kind or too cruel. Game Protector Vern Van Order, of Elk county, reports:

"Early in May I received frantic calls from people who said that when four bear cubs, in a tree along Route 255, attempted to come down to join their mother someone grabbed at them or threw sticks, forcing them back up.

"At the scene I found about 300 persons jammed right up to the tree. Autos and people completely blocked the highway. The cubs (each the size of a volley ball) were about 20 feet above ground, crying to beat the band. The worried mother bear was

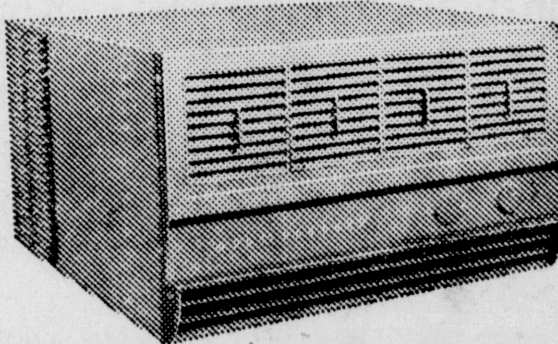

back on the hillside, in sight but fortunately not showing too much anger.

"I succeeded in shaming the people into moving a short distance from the tree. (When women are present the suggestion that babies should not be separated from their mother has quite an effect.) After the people moved, three of the cubs climbed down and joined their mother. I watched the fourth until dark but he stayed in the tree. However he was gone when I returned the next morning."
